APEX SCOTLAND'S STEPS SERVICE

What Is It?

Apex Scotland's Steps service supports people who have different challenges that they are facing in their lives or who are long term unemployed.

How Does It Work?

An Apex Personal Development Mentor will work with each person to help them address their challenges through an action plan that they agree together, while building on the individual's strengths and skills. We will support each person to achieve specific milestones, encouraging them to progress towards full time employment, education, training or accessing other employment support.

What Next?

Our objective is for each individual to complete their action plan by moving into employment, training, more advanced qualifications or progression to stage 3 providers on the Employability Pipeline.
